Introduction

Our vibrant campus, set within a sprawling 1-acre landscape, offers a safe haven for children to explore, learn, and play. Thoughtfully designed, our grounds feature lush green lawns, shaded relaxation areas, and dedicated play zones, all crafted to spark creativity and encourage physical activity. At New Cambridge International Public School, we're proud to provide students with advanced resources, including Audio-Visual Aids, a Math Lab, a Computer Lab, a Library, and State-of-the-Art Science Laboratories. Led by a skilled faculty, these tools empower students to develop their talents and reach their full potential in a holistic environment. Our well-ventilated classrooms with modern furniture ensure a comfortable and inspiring space for learning.

Principal's message

Dear Students and Parents,

Grade XI marks the beginning of an important new chapter. It is a time when students begin to look beyond school and think more seriously about their interests, abilities, aspirations and the future they wish to create.

At NCIPS, we believe that education must do more than prepare students for examinations. It must prepare them for life, to think independently, make informed choices, adapt to change, work with others and face the world with confidence and character.

We warmly welcome you to a school community where learning is purposeful, relationships matter and every student is encouraged to find their own path. Our academic programme is supported by experienced educators, strong board preparation and integrated preparation for competitive examinations. Equally important, we provide opportunities for career counselling, mentorship, real-world exposure, sports, health and wellness, helping students grow into balanced and responsible young adults.

At NCIPS, we believe that education must do more than prepare students for examinations. It must prepare them for life, to think independently, make informed choices, adapt to change, work with others, and face the world with confidence and character.

Welcome to Grade XI.

Welcome to a journey of discovery, growth, and possibility.

With warm regards,

Gargi Choudhury
Principal

Four Pillars.

One Purpose.

GUIDE • MENTOR • NURTURE • EMPOWER

Guide : helping students make thoughtful choices about subjects, careers and higher education based on their interests, strengths and aspirations, rather than peer pressure or expectations.

Mentor : offering the support, encouragement and individual attention students need as they navigate the opportunities and challenges of senior secondary school.

Nurture : valuing wellbeing, relationships, sports and personal growth alongside academic achievement.

Empower : developing independence, confidence, critical thinking, and the ability to take ownership of one's learning and decisions.

Vision

To be a leading educational institution that nurtures compassionate, innovative, and globally-aware leaders.

Mission

To foster a love for learning through a balanced curriculum that emphasizes academic rigor, creativity, and character development.

Value

Integrity, Respect,
Responsibility, Excellence,
Compassion

History of NCIPS

Founded under the ANUPAMA GROUP OF INSTITUTIONS umbrella, New Cambridge International Public School is committed to delivering an education that meets the highest standards of intellectual, moral, and value-based learning, aligned with global benchmarks.

At New Cambridge, we believe in personalised attention and purposeful learning, ensuring that every student's individual needs, strengths, and aspirations are nurtured. Our highly qualified and experienced faculty bring subject expertise, specialized skills, and strong language proficiency to create a stimulating, inclusive, and supportive learning environment that empowers students to excel.

Library

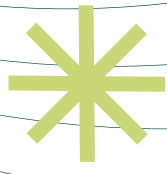

Our Library is a dynamic hub of knowledge, offering an extensive collection of books, academic journals, digital resources, and reference materials tailored to meet the needs of the students. It is designed to foster a love of reading, encourage research, and support academic excellence. The tranquil environment provides the perfect space for focused study, while our digital catalog and e-library give students access to a wealth of information at their fingertips.

Our Laboratories

Our state-of-the-art laboratories are designed to foster inquiry, innovation, and hands-on learning. The Physics, Chemistry, and Biology Labs provide students with opportunities to conduct experiments, explore real-world applications, and develop analytical and scientific thinking. The Skill Lab builds practical, industry-relevant skills through experiential learning, while our AI and Computer Science Lab helps students develop computational thinking, coding artificial intelligence, and digital problem-solving skills. With advanced equipment, technology, and a strong emphasis on safety and precision, these specialised learning spaces prepare students for academic excellence and future-ready careers.

Facilities

Sports

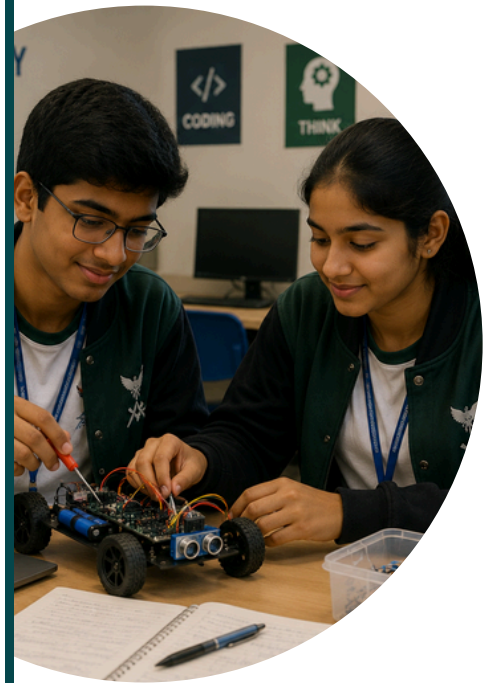

Our sports program is dedicated to developing both physical and mental strength. With top-notch facilities and expert coaching, students engage in a wide range of sports like volleyball, cricket, handball, and athletics

We emphasize teamwork, discipline, and resilience, encouraging students to participate in CBSE completions and training camps.

Mind Labs

Our Mind Lab is a dynamic space designed to ignite curiosity and foster innovative thinking among students. Equipped with cutting-edge resources and interactive learning tools, the Mind Lab encourages exploration in neuroscience, critical thinking, and cognitive skill development.

Technology Center

Technology Center is a hub for innovation and hands-on learning, designed to equip students with essential 21st-century skills. It features cutting-edge facilities, including advanced computer labs, robotics equipment, artificial intelligence enhanced curriculum and access to software development tools. Here, students can explore coding, artificial intelligence, digital design, and other technological fields through engaging projects and workshops.

Academic Programs

Science

Subject Combinations

- PCMC – Engineering Focus: Physics, Chemistry, Mathematics, and Computer Science
- PCMB – The Dual Track: Physics, Chemistry, Mathematics, and Biology – keeping both Medical and Engineering pathways open
- PCPE – Balanced Engineering: Physics, Chemistry, Mathematics, and Physical Education
- PCBP – Medical Focus: Physics, Chemistry, Biology, and Psychology
- PCBE – Balanced Medical: Physics, Chemistry, Biology, and Physical Education

5th / 6th Subject Options

- Students can choose from a range of additional subjects, including Psychology, Physical Education, Biotechnology, Economics, Fine Arts/Painting, and Hindustani Music.

Academic Programs

Commerce

Core Commerce Subjects

- Accountancy
- Business Studies
- Economics

4th Elective Options

- Students can choose from:
- Mathematics / Applied Mathematics
- Informatics Practices (IP) / Computer Science
- Entrepreneurship
- Physical Education
- Fine Arts

Academic Programs

Humanities

Core Humanities Subjects

- History
- Political Science
- Sociology
- Geography
- Economics
- Psychology

Optional Subject Choices

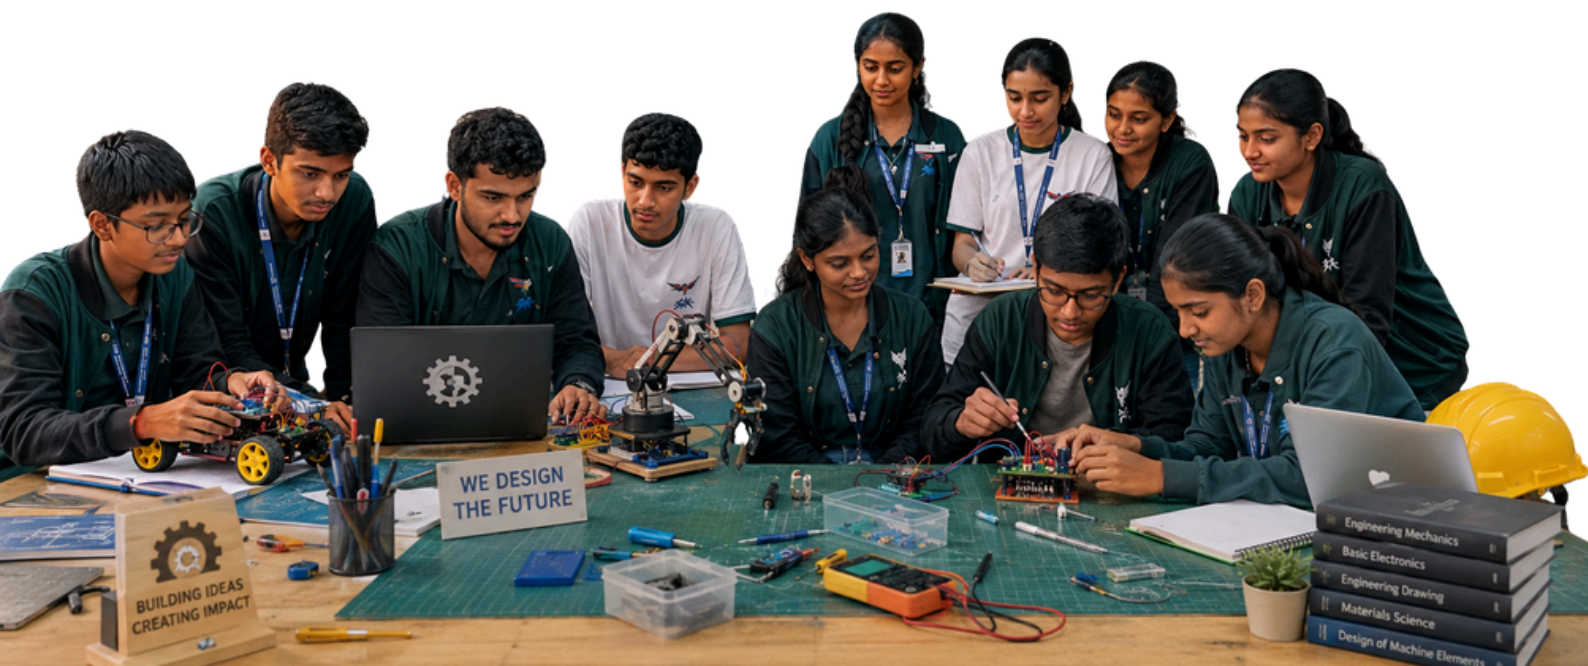

Students can choose from a diverse range of electives, including:

- Legal Studies
- Philosophy
- Fine Arts / Painting
- Physical Education
- Home Science
- Computer Science / Informatics Practices (IP)
- Mass Media Studies
- Additional Languages – Hindi, French, and more

Academic Programs

CBSE Sixth Subject

Students have the flexibility to opt for a sixth subject, in accordance with CBSE provisions. This additional choice allows students to broaden their academic exposure, strengthen their overall grades/percentage, and explore an area aligned with their interests, strengths, and future aspirations.

Career Counselling

Our Career Counselling Programme empowers students to make informed decisions about their academic pathways and future careers.

Through personalised guidance from experienced mentors, along with interactions with accomplished professionals and inspiring individuals from diverse fields and walks of life, students gain meaningful insights into emerging opportunities, career journeys, required skills, and real-world expectations.

These experiences help students discover their strengths, broaden their horizons, and make confident choices aligned with their interests, abilities, and future aspirations.

Extra Curricular Activities

Clubs

Debate, robotics, drama,
environmental club, chess

Arts

School band, visual arts
workshops

Community Service

Volunteering opportunities,
charity events,
environmental initiatives

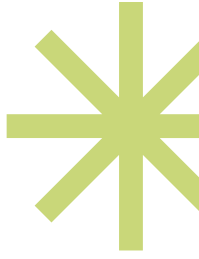

Sports Teams

Hand ball, Kabaddi , Kho Kho,
volleyball, track and field

Admission Process

- | | | |
|---|------------------|---|
| 1 | Application Form | Available on our website or at the admissions office |
